Re: Business Licence Application

Dear Ms. Taylor,

I am replying to your email dated February 1, 2017.

"Please advise how the activity of Herbivore varies from that of TKMT."

- The City addresses business licence applications as they come up and does not directly compare the specifics of business operations.

"Please advise which legal statute is it that Herbivore Cannabis Inc. has allegedly violated, and on which the decision was made."

- As the RCMP wrote in their press release dated February 2, 2017, "there is no legal mechanism available in Canada today which allows for a self-described medical marihuana dispensary or compassion club to function".

"I am requesting further explanation as to why I have been denied a business license with the City of Grand Forks."

- The City cannot support or endorse illegal activities.

"[P]lease advise what procedure and/ or protocol TKMT followed in order to receive a business license, so that my business may follow those guidelines as well."

- Please refer to Bylaw 1384 and its subsequent amendments, and the business licence application form.

Section 60 of the Community Charter allows an application for a business licence to be refused in any specific case provided it is not unreasonable and that written reasons are given.

You can ask Council to reconsider this decision. Please respond in writing if you would like to exercise that option.

Sincerely,
