

# Request for Decision

To: Committee of the Whole  
From: **Corporate Services**  
Date: April 9, 2018  
Subject: Bylaw 2048 – Records and Information Management Program Bylaw update  
Recommendation: **THAT the Committee of the Whole recommends to Council to give the first three readings of the proposed Records and Information Management Program Bylaw No. 2048 at the April 23, 2018 Regular Meeting of Council.**

---

## Background

As part of staff's ongoing review process regarding procedures, policies, and bylaws; it was determined that the Records Retention and Scheduling Bylaw needs to be updated.

The currently active bylaw (Bylaw No. 1662) is from 2001 and was established to include all disposition and retention schedules directly within the bylaw. Several of these timelines are outdated and other items that need to be included are not on the list, while others need to be completely removed.

In discussion with other municipalities, it was determined that the best approach would be at this point to introduce a full Records and Information Management Program and associated Bylaw. This coincides with the overall records and information management review and update that Staff has been working on. Staff is in the progress of finishing up the first phase of the records and information management overhaul and requires having Bylaw 1662 replaced by a modernized bylaw to continue with the process.

As the retention and classification schedules for records continually change and evolve, this modernized bylaw removes the retention and disposition schedules from the actual bylaw but integrates those and more dynamic content into a Records and Information Management Program that will be continually updated as necessary or as legislation and best practices change.

Attached is the proposed modernized Bylaw No. 2048 to authorize the Corporate Officer to implement, review, amend, and maintain the Records and Information Management Program along with its operational procedures, manuals, policies, and other related items for the organization.

---

## Benefits or Impacts

## General

Updating outdated bylaws helps reduce risk to the organization and ensures up to date legislation is referred to.

## Strategic Impact

### Community Engagement

- An effective Records and Information Management program is integral for expedient access to data and records
- Support for access for Freedom of Information requests

### Fiscal Responsibility

- Removing often time-consuming searches for documents and records by all of staff will increase productivity throughout the organization

## Policy/Legislation

Freedom of Information and Protection of Privacy Act  
Community Charter
